12th International Congress on Complications during Cardiovascular Interventions: Prevention & Management

Lausanne, Switzerland
June 28 - 30, 2017

www.ecc-conference.com
Endovascular Cardiac Complications is proud to announce the 12th edition of its international congress, to be held in Lausanne, Switzerland on June 28 - 30, 2017.

In line with a long-standing tradition, it has been decided to retain a similar format to that of previous years. Based on the feedback of past participants, the meeting will continue with the presentation of selected complication cases by the audience in collaboration with a panel of experts. This will alter with comprehensive sessions on a range of interesting topics.

Looking forward to welcoming you to Lausanne!
